

Order more blank cards

Here you can create cards without needing to add any information. You can add it later, whenever you need to. It's important to fill in the details before printing the cards.

1. From the Cards section, click the **I want more cards button**, you'll find it in the top left corner:

Choose the format of your new vCards

Digital cards

Digital cards have a unique QR code and are accessible from mobile devices.

Select

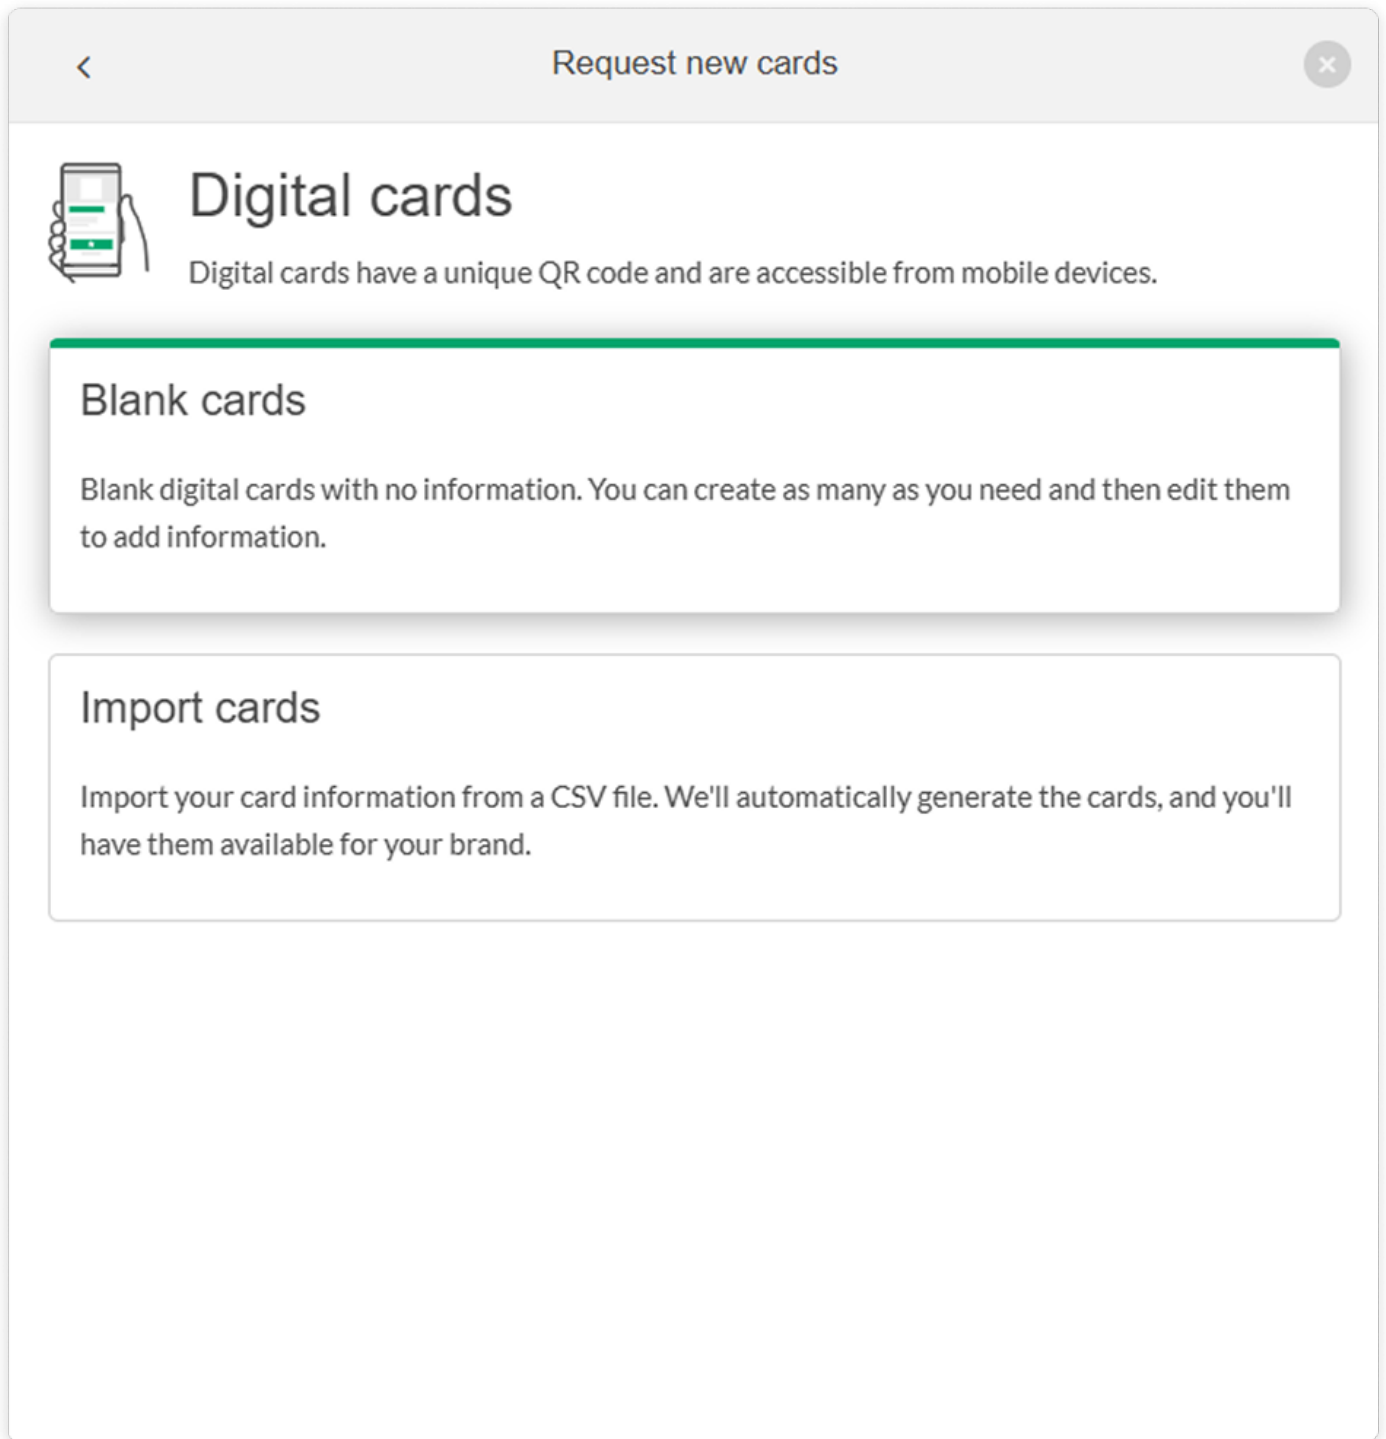

Print NFC cards

NFC-enabled business cards with your personalized design. You can view them with your device using NFC or by scanning the QR code.

Select

2. The following panel will open, and we'll click on "Digital Cards".

3. **Blank cards:** They are created instantly, and you can edit the details after requesting the new cards.

4. Choose the **quantity and brand** of the new cards. Once you generate them, they'll be ready in just a few seconds!
